PERMIT

PERMIT MUST BE POSTED AT PROJECT SITE, VISIBLE FROM ROAD

Permit Number 16-34  Permit Date: 07/19/16

Permit Granted To: David Bjomlie

Project Address 25264 W Meadow Lake Rd
City, State, ZIP: Detroit Lakes, MN 56501

Project Type Shore Impact Zone Alteration: Sand Beach Blanket

Permit Granted with the Following Conditions to be Satisfied by the Permit Holder:

1) Erosion and Sediment Control Best Management Practices will be installed to contain disturbed soil which will not be stabilized within 24 hours.
2) Landscape fabric will not extend below the Ordinary High Water level.
3) Stone edging will not create any grade differential; no retaining walls are allowed in the Shore Impact Zone.
4) No emergent vegetation will be removed without permit from the MN DNR.
5) Project will be constructed as depicted in PRWD sketch, dated 07/18/2016.

**Install according to Becker County or Detroit Lakes Shoreland Ordinance and Planning and Zoning regulations, and State of MN - Department of Natural Resources**

This permit is valid for 18 months.

Permit may be revoked at any time upon violation of Pelican River Water Management Rules. Any changes to this site permit results in nullification of this permit and a new permit will have to be obtained.

Signature of Tera Guetter, District Administrator

2. Duplicates of all drawings, site plans, and other required documents.
3. Application and Field inspection fees according to the most recent schedule
   Fee Schedule updated January 2016
4. Street map indicating project location

TERMS OF THE PERMIT

Applying for a permit issued through the Pelican River Watershed District (PRWD) in no way precludes obligation for permit application that may be required through OTHER governmental agencies. Any work performed prior to obtaining all required authorizations may be subject to Federal, State and/or administrative, civil, and/or criminal penalties. No liability shall be imposed on the District or any of its officers, agents or employees on official or personal grounds, on account of the granting of this permit, on account of any damage to any person or property resulting from any act or omission of the Permittee or any of its agents, employees or contractors relating to any matter hereunder. This permit shall not be construed as limiting any legal claim or right of action of the District against the Permittee, its agents, employees or contractors for the violation of, or failure to comply, with the provisions of the permit or applicable provisions of law.

When all items have been satisfactorily completed and the District determines the project meets the District's Rule requirement, this permit will be issued. The permit may be picked up at the District office, or it will be mailed to the designated address. A copy of the approved permit will be sent to the applicable local governmental entity (Becker or Ottertail County, City of Detroit Lakes Zoning departments).

The permit will be valid for eighteen (18) months from the date of issuance, unless otherwise suspended or revoked. A permit may be extended at no charge, provided the property owner notifies the District in writing stating the reasons for extension. Any plan changes, and related project documents must also be included in the extension application. The District must receive the extension application at least thirty (30) day prior to the permit’s expiration date as issued.

If changes are made to the permitted plans for this project, changes must be submitted to the District (in duplicate form) for review prior to installation or completion occurs. If changes to the original (permitted) plans are approved, an amended permit will then be issued.

This permit may be terminated by the Board of Managers without notice at any time deemed necessary for the management of the water resources of the District, or in the interest of public health and welfare, or for violation of any of the provision of this permit.

A permit surety may be required of the permit holder or applicant. A surety is a monetary sum (an amount set by the Board of Managers, District staff and/or the District engineer after review of the project application or approved permit) provided by the applicant/permittee to the District to ensure the project is completed as designed and in compliance with District Rules. The District returns the money to the applicant/permittee after all permit conditions are met and the project is complete. If the District requires a surety, the applicant/permittee must provide the District the surety amount in the form of a check made out to the Pelican River Watershed District, or a Performance Bond, or Letter of Credit.

PERMIT APPLICATION AGREEMENT

"I understand that, as a Permittee, I am legally accountable to ensure compliance with the terms and conditions of the permit. I understand that I am not authorized to begin the project until I received the permit and the permit is posted as directed on the project site. If the project is modified, I will obtain approval by the District before I continue with the project. I authorize the District, and its agents, employees, officers, and contractors to enter the project site to perform any inspection or work authorized by the permit or any applicable law."

"I certify that I have thoroughly read and understand the information on this permit application, including submittal requirements."

ACTION BY THE PELICAN RIVER WATERSHED DISTRICT

The above application is [APPROVED / DISAPPROVED] this 19th day of July, 2016, by the
Pelican River Watershed District
By: [Signature]
Its: [Signature]
Landowner: David Bjornlie  
Contractor: Natures Design (Josh Braten)  
Project Address: 25264 W Meadow Lake Dr  
Site Visit Date: 06/07/2016, 07/15/2016  
Parties Present During visit: Owner, Contractor

I met the homeowner and the contractor at the above address on Meadow Lake to discuss an application for the installation of a sand beach blanket. Josh Braten (Natures Design) described the project for laying sand along 50’x10’ of the shoreline to a depth of 6”. Rocks will be used to contain the sand to prevent erosion and slow runoff from the adjacent slope, the stones will not be stacked and will not create any grade differential. All sand will be behind the Ordinary High Water level except for an area <15’ wide in the area where no emergent vegetation is present.

The permit is approved with the following conditions.

1. Erosion and Sediment Control Best Management Practices will be installed to contain disturbed soil which will not be stabilized within 24 hours.
2. Landscape fabric will not extend below the Ordinary High Water level.
3. Stone edger will not create any grade differential; no retaining walls are allowing in Shore Impact Zone.
4. No emergent aquatic vegetation will be removed without permit from the MN DNR.
5. Project will be constructed as depicted in PRWD sketch, dated 07/18/2016

Brent Alcott | Assistant Administrator
