Site Visit Date: 07/15/2016
Parties Present During visit: None

I visited the above site to observe the condition of trees that were proposed to be removed in the permit application. Upon inspection, I found that only one tree was located within the Shore Impact Zone that would require a permit for removal. The tree was living but showed some signs of foliage loss and did not appear to be as healthy as the neighboring trees.

The permit should be approved with the following conditions

1) Replant at least two trees within the Shore Impact Zone to replace the removed tree.
