Revised Management Plan – Guetter is completing staff recommendations for goals and strategies. Meetings with various groups are scheduled in February and March.

BWSR Drainage Ditch Inventory Inspection Grant (Becker SWCD) – Alcott will coordinate with landowners, MN DNR, NRCS, and Becker SWCD to review potential land conservation practice sites which were identified and prioritized from the Ditch Inventory. WATER MANAGEMENT RULES
Permits - see enclosed report.

City of DL Shoreland Ordinance Advisory Committee Meeting – During the December 19th meeting, the Committee completed discussions on revisions to the definitions section of the Ordinance. It was decided that the revised definitions section would be presented to the Planning Commission and the City Council to be adopted prior to beginning of the spring construction season. This will provide some much-needed clarification and water resource protections, prior to the completion of the revision to the Shoreland Ordinance. The committee will continue to review and propose revisions to the Shoreland Ordinance for consideration by the Planning Commission and City Council.

MONITORING

Water Quality Data – Alcott continues to work on building a water quality information database that will include all recorded data, from both PRWD and the Citizen Lake Monitoring Program, which will date back to 1995. He is working on the annual monitoring report and is completing the lake and stream reports. Results of the 2016 monitoring season were highly variable as a result of above average July and August rainfalls.

Water Quality Training – Red River Basin – Alcott will be attending the annual training program February 15th at U of MN, Crookston.

EDUCATION

Explore Lake Life Expo – The District will be represented at the expo in Fargo on January 27 & 28 at the Scheels’ Arena. Moses is creating updated educational information for the event which will also be used for the upcoming year.

Lakes Area Shoreland Regulations Seminar – Staff continues to work with the City of Detroit Lakes and Becker County Zoning office on the details of the seminar scheduled for Wednesday, February 22 at M-State in Detroit Lakes. Registration is $20 and includes coffee and rolls in the morning and a pasta lunch. The registration forms were mailed out to over 250 area landcapers this week. The workshop is open to anyone interested in learning more about the ins and outs of project permitting, developing a complete site plan, water regulations and two afternoon concurrent tracts featuring 1) small and large site project implementation and navigating mitigation standards; and 2) Shoreline Enhancement with in-depth information (tips and tricks) for fixing/preventing shoreline erosion, shoreline revitalization techniques, and installing rain gardens.

Shoreland Information – Moses and Alcott continue to create updated education materials for the packets to be used at the Explore Lake Life Expo and the Shoreland Regulations seminar.

If awarded, it will nearly double the funds (just under $10,000) that were received last year for Flowering Rush and Curly-leaf pondweed treatments.

Letters of recommendation from the AIS committee were sent to Commissioner Landwehr recommending in the 2017 Legislative session, the agency seek support for sustainable funding for the MN DNR AIS programs, sustainable funding for the U of MN AIS Research Center, a watercraft operator permit program (includes an AIS education section), and U.S. federal AIS regulations. The legislative committee also recommended supporting legislative changes to increase authority to conduct mandatory inspections at strategic choke points statewide; ability to quarantine water-related AIS infested equipment if it poses a threat; authority for a tagging program, add “dry” to existing clean, drain, dispose MN statute language. However, these items were not acted upon as more information/clarifications are needed.
