Site Visit Date: 04/23/2015  
Parties Present During visit: Eric Johnson

I met with Eric Johnson for shoreline repair caused by ice damage. He expressed interest for native grasses for shoreline stabilization.

The homeowner will consult with Marsha Watland, Becker County Soil and Water Conservation District, for planting recommendations, planting techniques, and maintenance plan. Native grasses will be planted along the length of the shoreline to stabilize. Gravel/Sand will be graded toward the lake after organic material is removed.
