4. PROJECT DESCRIPTION

Dan Street Improvements

5. DATES

Proposed start of activity: 9/1/2015
Proposed Completion Date: 11/1/2015
Submittal Requirements
Applicants must submit all of the following items:
1. Completed permit application (application must be signed by the PROPERTY OWNER or Governmental Entity)
2. 2 copies of drawings, plans and other data as outlined in "Pelican River Watershed District Permit Information Sheets"
3. The application/field inspection fees according to the most recent schedule set by the Board of Managers
4. Street location map

Applying for the permit does not preclude your applying for any necessary permit that may be required from OTHER governmental agencies. Any work performed prior to obtaining all required authorizations may be subject to Federal, State, and/or local administrative, civil and/or criminal penalties. No liability shall be imposed on the district or any of its officers, agents, or employees, officially or personally, on account of the granting of this permit, on an account of any damage to any person or property resulting from any act or omission of the permittee or any of its agents, employees or contractors relating to any matter hereunder. This permit shall not be construed as limiting any legal claim or right of action of the District against the permittee, its agents, employees, or contractors for the violation of or failure to comply with the provisions of the permit or applicable provisions of law.

When all items have been satisfactorily completed and the District determines the project meets the District’s Rule requirement, this permit will be issued. The permit may be picked up at the office or it will be mailed out. A copy will be faxed to the applicable governmental entity (Becker County or City of DL Zoning Departments).

The permit will be valid for 18 months from date of issuance unless otherwise suspended or revoked. A permit may be extended at no charge provided the property owner notifies the District in writing stating the reasons for extension. Any plan changes, and related project documents must also be included in the extension application. The District must receive the extension application at least 30 days prior to the permit’s expiration date.

If changes are made to the permitted plans for this project, changes must be submitted to the District (in duplicate) for review.
If approved, an amended permit will be issued.

When the project is complete, please call the District office at (218) 846-0436 to request final inspection.

This permit may be terminated by the Board of Managers without notice at any time deemed necessary for the management of the water resources of the District, or in the interest of the public health and welfare, or for violation of any of the provisions of this permit.

'I understand that, as a Permitee, I am legally accountable to ensure compliance with the terms and conditions of the permit. I understand that I am not authorized to begin the project until I receive the permit and the permit sign is posted on the site. If the project is modified, I will obtain approval by the District before I continue with the project. I authorize the District, and its agents, employees, officers and contractors, to enter the project site to perform any inspection or work authorized by the permit or any applicable law."

"I certify that I have thoroughly read and understand the information on this permit application, including submittal requirements."

SIGNATURE__________________________ City Admin. DATE: 8/13/2015

Property Owner or Authorized Signature of Governmental Entity

APPROVED PERMIT MUST BE POSTED PROMINENTLY ON THE SITE BEFORE ANY WORK CAN BEGIN. THE PELICAN WATERSHED DISTRICT MAY ISSUE STOP-WORK ORDERS ON SITES WITHOUT APPROVED PERMITS. IF A PERMITTED SITE IS OUT OF COMPLIANCE WITH ITS PLAN, AS DETERMINED BY INSPECTION, A STOP WORK ORDER MAY BE ISSUED AND PENALTIES APPLIED. VIOLATION OF DISTRICT WATER MANAGEMENT RULES IS A MISDEMEANOR SUBJECT TO A PENALTY AS PROVIDED BY LAW.

ACTION BY PELICAN RIVER WATERSHED DISTRICT

PERMIT NO. 0150 91

The above application for permit is APPROVED / DISAPPROVED this 30th day of Sept., 2015

Pelican River Watershed District

PERMIT REVIEW

REVIEW DATE: September 29, 2015
WENCK REVIEW ID: 15-04
ITEM: Tower Rd, Dan St, Peter St Improvements

RECOMMENDATION TO DISTRICT ADMINISTRATOR:
X Issue permit
____ Issue permit with conditions (see end of report)
____ Verify compliance with conditions before permit issue (see end of report)
____ Deny permit

APPLICANT: Apex Engineering
1265 Highway 10 West –Suite 4
Detroit Lakes, MN 56501

PURPOSE: The proposed project involves the reconstruction Dan Street. Following completion, approximately 1.24 acres of the 2.09-acre site (41%) will be converted to from gravel road to paved road.

The City is also reconstructing Tower Road and Peter Street under this project. Dan Street, Tower Road, and Peter Street are not connected. Tower Road and Peter Street do not require a PRWD permit as they are each less than one acre of total impervious surface.

LOCATION: Dan Street (between Tower Road and Richwood Road), Tower Road, and Peter Street.

APPLICABILITY: Total impervious surface (new and existing) of one acre or more

EXHIBITS:
1. Permit Application Memo, by Apex Engineering Group, dated 8/19/15, recd. 9/1/15.
4. HydroCAD Model, by Apex Engineering Group, dated 8/14/15, recd. 9/1/15.

FINDINGS:

Maintenance: A detailed schedule indicating dates and sequence of land alteration activities has been received. A detailed description of how erosion and sediment control and soil stabilization measures will be monitored, maintained, and removed has been received. The name, address and phone number of the party responsible for maintenance of all erosion control measures has been provided. A maintenance plan for on-site treatment measures has been provided.

Soils & Erosion Control Plan: Soils affected by the proposal are sandy loam and gravelly sand. Preliminary landscaping plans for storm water treatment practices and site re-vegetation have been provided. Adjacent properties are protected from sediment deposition. Wetlands, waterbodies and water conveyance systems are protected from erosion. Project site is greater than 1 acre; an NPDES permit is required.

Grading Plan: The location/dimension of existing property lines, roads, structures, utilities, easements, and paved and unpaved areas has been provided. A detailed site topographic plan (minimum 2-foot contours) for the proposed project conditions, which clearly indicates alterations to existing grades and topographic features, has been provided.

Stormwater & Hydraulics: Stormwater leaving the site is discharged into a well-defined receiving channel or pipe and routed to a public drainage system. The rate of post-development runoff from the site does not exceed pre-development rates for the 5-, 25-, and 100-year, 24-hour storm events.

Water Quality: New impervious areas have been identified. Proposed water quality treatment facilities achieve 90% TSS and 50% total phosphorus removal. Infiltration basins are designed correctly.

RECOMMENDATION TO DISTRICT ADMINISTRATOR:

[ ] Issue permit
[ ] Issue permit with conditions (see end of report)
[ ] Verify compliance with conditions before permit issue (see end of report)
[ ] Deny permit

As your re-submittal is reviewed, we may find the need to request additional information, and will so inform you.
Conditions:
1. Copy of MCPA notification of application for an NPDES general permit.
2. Provide name and contact information of party responsible for all maintenance and erosion control measures.
3. Provide a detailed schedule indicating dates and sequence of land alteration activities.
4. Provide preliminary landscaping plans for storm water treatment practices and site re-vegetation.
5. Provide a maintenance plan for on-site treatment measures.
6. Provide perimeter control along both sides of the Tower Road work to protect the wetlands.
